Agenda

09:00 - 10:00Registration & coffee10:00 - 10:20Welcome & goals of the Workshop10:20 - 10:40Osteomyelitis and FRI10:40 - 11:10Understanding FRI: Definitions, diagnostic workup and sampling11:10 - 11:40Discussion11:40 - 12:10Coffee break12:10 - 12:30Antimicrobial treatment12:30 - 12:50Management of bone defects12:50 - 13:35Discussion13:35 - 14:35Lunch buffet14:35 - 14:55FRI treatment in case of infected nonunion. Bone defect management.14:55 - 15:15Reducing the risk of infection on the surgical pathway15:15 - 16:00Discussion16:00 - 16:30Coffee break16:30 - 16:50Clinical evidence of biomaterials in osteomyelitis treatment. Literature review and decision-making considerations16:50 - 17:50Practical workshop (2 groups in parallel):	Day 1	
10:20 – 10:40 Osteomyelitis and FRI 10:40 – 11:10 Understanding FRI: Definitions, diagnostic workup and sampling 11:10 – 11:40 Discussion 11:40 – 12:10 Coffee break 12:10 – 12:30 Antimicrobial treatment 12:30 – 12:50 Management of bone defects 12:50 – 13:35 Discussion 13:35 – 14:35 Lunch buffet 14:35 – 14:55 FRI treatment in case of infected non-union. Bone defect management. 14:55 – 15:15 Reducing the risk of infection on the surgical pathway 15:15 – 16:00 Discussion 16:00 – 16:30 Coffee break 16:30 – 16:50 Clinical evidence of biomaterials in osteomyelitis treatment. Literature review and decision-making considerations 16:50 – 17:50 Practical workshop (2 groups in parallel): Use of \$53P4 bioactive glass TBD 17:50 – 18:00 Wrap-up From 19:00 Dinner Day 2 08:30 – 09:00 Coffee (meet the experts informally) 09:00 – 09:20 Management of complex cases 09:20 – 09:40 Local antibiotic treatment in FRI. IMN with antibiotics 09:40 – 10:00 Bone defect reconstruction with calcium sulfate-based substitutes: Clinical experience and advances 10:00 – 10:30 Discussion 10:30 – 11:00 Coffee break 11:00 – 11:20 TBD 11:20 – 11:30 Hands-on workshop 11:30 – 11:50 Most common errors 11:50 – 13:00 Participants' case presentations,	09:00 - 10:00	Registration & coffee
10:40 – 11:10 Understanding FRI: Definitions, diagnostic workup and sampling 11:10 – 11:40 Discussion 11:40 – 12:10 Coffee break 12:10 – 12:30 Antimicrobial treatment 12:30 – 12:50 Management of bone defects 12:50 – 13:35 Discussion 13:35 – 14:35 Lunch buffet 14:35 – 14:55 FRI treatment in case of infected nonunion. Bone defect management. 14:55 – 15:15 Reducing the risk of infection on the surgical pathway 15:15 – 16:00 Discussion 16:00 – 16:30 Coffee break 16:30 – 16:50 Clinical evidence of biomaterials in osteomyelitis treatment. Literature review and decision-making considerations 16:50 – 17:50 Practical workshop (2 groups in parallel): Use of S53P4 bioactive glass TBD 17:50 – 18:00 Wrap-up Dinner Day 2 08:30 – 09:00 Coffee (meet the experts informally) 09:00 – 09:20 Management of complex cases 09:20 – 09:40 Local antibiotic treatment in FRI. IMN with antibiotics 09:40 – 10:00 Bone defect reconstruction with calcium sulfate-based substitutes: Clinical experience and advances 10:00 – 10:30 Discussion 10:30 – 11:20 TBD 11:20 – 11:30 Hands-on workshop 11:50 – 13:00 Participants' case presentations,	10:00 - 10:20	Welcome & goals of the Workshop
workup and sampling 11:10 – 11:40 Discussion 11:40 – 12:10 Coffee break 12:10 – 12:30 Antimicrobial treatment 12:30 – 12:50 Management of bone defects 12:50 – 13:35 Discussion 13:35 – 14:35 Lunch buffet 14:35 – 14:55 FRI treatment in case of infected nonunion. Bone defect management. 14:55 – 15:15 Reducing the risk of infection on the surgical pathway 15:15 – 16:00 Discussion 16:00 – 16:30 Coffee break 16:30 – 16:50 Clinical evidence of biomaterials in osteomyelitis treatment. Literature review and decision-making considerations 16:50 – 17:50 Practical workshop (2 groups in parallel): Use of S53P4 bioactive glass TBD 17:50 – 18:00 Wrap-up From 19:00 Dinner Day 2 08:30 – 09:00 Coffee (meet the experts informally) 09:00 – 09:20 Management of complex cases 09:20 – 09:40 Local antibiotic treatment in FRI. IMN with antibiotics 09:40 – 10:00 Bone defect reconstruction with calcium sulfate-based substitutes: Clinical experience and advances 10:00 – 10:30 Discussion 10:30 – 11:20 TBD 11:20 – 11:30 Hands-on workshop 11:30 – 11:50 Most common errors 11:50 – 13:00 Participants' case presentations,	10:20 - 10:40	Osteomyelitis and FRI
11:10 – 11:40 Discussion 11:40 – 12:10 Coffee break 12:10 – 12:30 Antimicrobial treatment 12:30 – 12:50 Management of bone defects 12:50 – 13:35 Discussion 13:35 – 14:35 Lunch buffet 14:35 – 14:55 FRI treatment in case of infected nonunion. Bone defect management. 14:55 – 15:15 Reducing the risk of infection on the surgical pathway 15:15 – 16:00 Discussion 16:00 – 16:30 Coffee break 16:30 – 16:50 Clinical evidence of biomaterials in osteomyelitis treatment. Literature review and decision-making considerations 16:50 – 17:50 Practical workshop (2 groups in parallel): Use of S53P4 bioactive glass TBD 17:50 – 18:00 Wrap-up From 19:00 Dinner Day 2 08:30 – 09:00 Coffee (meet the experts informally) 09:00 – 09:20 Management of complex cases 09:20 – 09:40 Local antibiotic treatment in FRI. IMN with antibiotics 09:40 – 10:00 Bone defect reconstruction with calcium sulfate-based substitutes: Clinical experience and advances 10:00 – 10:30 Discussion 10:30 – 11:00 Coffee break 11:00 – 11:20 TBD 11:20 – 11:30 Hands-on workshop 11:50 – 13:00 Participants' case presentations,	10:40 - 11:10	Understanding FRI: Definitions, diagnostic
11:40 – 12:10 Coffee break 12:10 – 12:30 Antimicrobial treatment 12:30 – 12:50 Management of bone defects 12:50 – 13:35 Discussion 13:35 – 14:35 Lunch buffet 14:35 – 14:55 FRI treatment in case of infected nonunion. Bone defect management. 14:55 – 15:15 Reducing the risk of infection on the surgical pathway 15:15 – 16:00 Discussion 16:00 – 16:30 Coffee break 16:30 – 16:50 Clinical evidence of biomaterials in osteomyelitis treatment. Literature review and decision-making considerations 16:50 – 17:50 Practical workshop (2 groups in parallel): Use of \$53P4 bioactive glass TBD 17:50 – 18:00 Wrap-up From 19:00 Dinner Day 2 08:30 – 09:00 Coffee (meet the experts informally) 09:00 – 09:20 Management of complex cases 09:20 – 09:40 Local antibiotic treatment in FRI. IMN with antibiotics 09:40 – 10:00 Bone defect reconstruction with calcium sulfate-based substitutes: Clinical experience and advances 10:00 – 10:30 Discussion 10:30 – 11:00 Coffee break 11:00 – 11:20 TBD 11:20 – 11:30 Hands-on workshop 11:50 – 13:00 Participants' case presentations,		workup and sampling
12:10 – 12:30 Antimicrobial treatment 12:30 – 12:50 Management of bone defects 12:50 – 13:35 Discussion 13:35 – 14:35 Lunch buffet 14:35 – 14:55 FRI treatment in case of infected non-union. Bone defect management. 14:55 – 15:15 Reducing the risk of infection on the surgical pathway 15:15 – 16:00 Discussion 16:00 – 16:30 Coffee break 16:30 – 16:50 Clinical evidence of biomaterials in osteomyelitis treatment. Literature review and decision-making considerations 16:50 – 17:50 Practical workshop (2 groups in parallel): • Use of S53P4 bioactive glass • TBD 17:50 – 18:00 Wrap-up From 19:00 Dinner Day 2 08:30 – 09:00 Coffee (meet the experts informally) 09:00 – 09:20 Management of complex cases 09:20 – 09:40 Local antibiotic treatment in FRI. IMN with antibiotics 09:40 – 10:00 Bone defect reconstruction with calcium sulfate-based substitutes: Clinical experience and advances 10:00 – 10:30 Discussion 10:30 – 11:00 Coffee break 11:00 – 11:20 TBD 11:20 – 11:30 Hands-on workshop 11:30 – 11:50 Most common errors 11:50 – 13:00 Participants' case presentations,	11:10 - 11:40	Discussion
12:30 – 12:50 Management of bone defects 12:50 – 13:35 Discussion 13:35 – 14:35 Lunch buffet 14:35 – 14:55 FRI treatment in case of infected non-union. Bone defect management. 14:55 – 15:15 Reducing the risk of infection on the surgical pathway 15:15 – 16:00 Discussion 16:00 – 16:30 Coffee break 16:30 – 16:50 Clinical evidence of biomaterials in osteomyelitis treatment. Literature review and decision-making considerations 16:50 – 17:50 Practical workshop (2 groups in parallel): Use of \$53P4 bioactive glass TBD 17:50 – 18:00 Wrap-up From 19:00 Dinner Day 2 08:30 – 09:00 Coffee (meet the experts informally) 09:00 – 09:20 Management of complex cases 09:20 – 09:40 Local antibiotic treatment in FRI. IMN with antibiotics 09:40 – 10:00 Bone defect reconstruction with calcium sulfate-based substitutes: Clinical experience and advances 10:00 – 10:30 Discussion 10:30 – 11:00 Coffee break 11:00 – 11:20 TBD 11:20 – 11:30 Hands-on workshop 11:50 – 13:00 Participants' case presentations,	11:40 - 12:10	Coffee break
12:50 – 13:35 Discussion 13:35 – 14:35 Lunch buffet 14:35 – 14:55 FRI treatment in case of infected non-union. Bone defect management. 14:55 – 15:15 Reducing the risk of infection on the surgical pathway 15:15 – 16:00 Discussion 16:00 – 16:30 Coffee break 16:30 – 16:50 Clinical evidence of biomaterials in osteomyelitis treatment. Literature review and decision-making considerations 16:50 – 17:50 Practical workshop (2 groups in parallel): Use of S53P4 bioactive glass TBD 17:50 – 18:00 Wrap-up From 19:00 Dinner Day 2 08:30 – 09:00 Coffee (meet the experts informally) 09:00 – 09:20 Management of complex cases 09:20 – 09:40 Local antibiotic treatment in FRI. IMN with antibiotics 09:40 – 10:00 Bone defect reconstruction with calcium sulfate-based substitutes: Clinical experience and advances 10:00 – 10:30 Discussion 10:30 – 11:00 Coffee break 11:00 – 11:20 TBD 11:20 – 11:30 Hands-on workshop 11:50 – 13:00 Participants' case presentations,	12:10 - 12:30	Antimicrobial treatment
14:35 – 14:35	12:30 - 12:50	Management of bone defects
14:35 – 14:55 FRI treatment in case of infected non-union. Bone defect management. 14:55 – 15:15 Reducing the risk of infection on the surgical pathway 15:15 – 16:00 Discussion 16:00 – 16:30 Coffee break 16:30 – 16:50 Clinical evidence of biomaterials in osteomyelitis treatment. Literature review and decision-making considerations 16:50 – 17:50 Practical workshop (2 groups in parallel): Use of S53P4 bioactive glass TBD 17:50 – 18:00 Wrap-up From 19:00 Dinner Day 2 08:30 – 09:00 Coffee (meet the experts informally) 09:00 – 09:20 Management of complex cases 09:20 – 09:40 Local antibiotic treatment in FRI. IMN with antibiotics 09:40 – 10:00 Bone defect reconstruction with calcium sulfate-based substitutes: Clinical experience and advances 10:00 – 10:30 Discussion 10:30 – 11:00 Coffee break 11:00 – 11:20 TBD 11:20 – 11:30 Hands-on workshop 11:50 – 13:00 Participants' case presentations,	12:50 - 13:35	Discussion
union. Bone defect management. 14:55 – 15:15 Reducing the risk of infection on the surgical pathway 15:15 – 16:00 Discussion 16:00 – 16:30 Coffee break 16:30 – 16:50 Clinical evidence of biomaterials in osteomyelitis treatment. Literature review and decision-making considerations 16:50 – 17:50 Practical workshop (2 groups in parallel): Use of S53P4 bioactive glass TBD 17:50 – 18:00 Wrap-up From 19:00 Dinner Day 2 08:30 – 09:00 Coffee (meet the experts informally) 09:00 – 09:20 Management of complex cases 09:20 – 09:40 Local antibiotic treatment in FRI. IMN with antibiotics 09:40 – 10:00 Bone defect reconstruction with calcium sulfate-based substitutes: Clinical experience and advances 10:00 – 10:30 Discussion 10:30 – 11:20 TBD 11:20 – 11:30 Hands-on workshop 11:30 – 11:50 Most common errors 11:50 – 13:00 Participants' case presentations,	13:35 – 14:35	Lunch buffet
14:55 – 15:15 Reducing the risk of infection on the surgical pathway 15:15 – 16:00 Discussion 16:00 – 16:30 Coffee break 16:30 – 16:50 Clinical evidence of biomaterials in osteomyelitis treatment. Literature review and decision-making considerations 16:50 – 17:50 Practical workshop (2 groups in parallel): Use of S53P4 bioactive glass TBD 17:50 – 18:00 Wrap-up From 19:00 Dinner Day 2 08:30 – 09:00 Coffee (meet the experts informally) 09:00 – 09:20 Management of complex cases 09:20 – 09:40 Local antibiotic treatment in FRI. IMN with antibiotics 09:40 – 10:00 Bone defect reconstruction with calcium sulfate-based substitutes: Clinical experience and advances 10:00 – 10:30 Discussion 10:30 – 11:00 Coffee break 11:00 – 11:20 TBD 11:20 – 11:30 Hands-on workshop 11:50 – 13:00 Participants' case presentations,	14:35 – 14:55	FRI treatment in case of infected non-
surgical pathway 15:15 – 16:00 Discussion 16:00 – 16:30 Coffee break 16:30 – 16:50 Clinical evidence of biomaterials in osteomyelitis treatment. Literature review and decision-making considerations 16:50 – 17:50 Practical workshop (2 groups in parallel): Use of S53P4 bioactive glass TBD 17:50 – 18:00 Wrap-up From 19:00 Dinner Day 2 08:30 – 09:00 Coffee (meet the experts informally) 09:00 – 09:20 Management of complex cases 09:20 – 09:40 Local antibiotic treatment in FRI. Organizational details

Workshop language: English

Course fee: 480.00 € (early bird rate until 30 days prior to the workshop) / 520.00 € (regular registration)

CME credits: Applied for approval by the Medical Chamber Berlin, and by Ethical MedTech.

Certificate: Participants will receive a certificate of participation.

Educational material: All participants will receive all presentations of the speakers of the workshop, the latest version of the *Pocket Guide to Diagnosis and Treatment of implant-associated infections after fracture fixation* as well as a selection of relevant publications related to FRI.

Group size: 40-50 participants.

Participants are encouraged to actively participate in case discussions by presenting own cases (approx. 5 slides).

Registration: <u>www.pro-implant.org/workshops</u>

Contact: Lilith Johannsen
Tel: +49 (0)30 450 652 416
lilith.johannsen@pro-implant.org

Target audience:

Clinicians and life-science researchers with advanced knowledge and interest in fracture-related infections of the following specialties (or enrolled in an educational program):

- Traumatology, orthopaedic or related surgeons dealing with bone and implant-associated infections after fracture
- Internal medicine, (micro)biology, infectious diseases or related fields dealing with biofilms and antibiotics
- Pharmacy, pharmacology or related fields dealing with pharmacokinetics/pharmacodynamics

Ideally, a complementary team from individual institutions should attend the same workshop, i.e. orthopaedic/trauma surgeon and microbiologist/infectious diseases specialist.

Workshop on Management of Fracture-Related Infections (FRI)

Berlin, Germany

April 9 – 10, 2026

Faculty:

Prof. Dr. med. Andrej Trampuz

Royal Brisbane and Women's Hospital (RBWH) and Queensland University of technology (QUT), Australia

Dr. med. Cristina Ojeda-Thies

Hospital Universitario 12 de Octubre, Madrid, Spain

Welcome

Dear colleagues, dear friends,

It is our great pleasure to invite you to our Workshops on Management of Fracture-Related Infections (FRI) in Berlin.

Our goal is to provide you the most up-to-date and best evidencebased knowledge in pathogenesis, diagnosis, treatment and prevention of fracture-related infections. We put a special emphasis on the interdisciplinary teamwork, open discussions and practical advice for the routine clinical work.

Since the establishment of the PRO-IMPLANT Foundation in 2013. we have constantly improved the quality of lectures, broadened the content and strived to acquire the best international experts in the field. Practical hands-on sessions, case discussions and interactive lectures are specially designed to share experience and interact with other participants. The interest in our workshops is steadily increasing in countries all over the world, demonstrating the interest and need for such an educational format.

The number of workshop participants from all over the world is steadily growing, demonstrating the interest and need for such an educational event.

This is why the PRO-IMPLANT Foundation is tremendously honored to continue fulfilling its mission and commitment to support international research, medical education, global networking and patient care.

We are very pleased to welcome you to one of our next workshops on fracture-related infections to fulfill this aim together.

Yours sincerely,

The goal: Advancing knowledge

To review, update and advance the theoretical and practical knowledge in diagnosis, treatment and prevention of bone and implant-associated infections. At the end of the workshop, participants should be able to generate a rational and efficient management plan based on modern principles.

The challenge: Biofilms and implants

Implant-associated infections occur in up to 10% after fracture fixation. Bacteria grow on medical devices as biofilm, making them difficult to detect and hard to eradicate. Infections after fracture fixation cause considerable morbidity and healthcare costs. An efficient management concept can significantly improve the outcome and life quality of patients.

The solution: Teamwork of experts

The key to success is an interdisciplinary approach of various medical specialties integrating the latest evidence, clinical experience and innovation in the diagnosis, surgical techniques, antibiotic therapy and local bone and soft tissue management.

Topics of discussion

- Epidemiology, definition and pathogenesis of bone and implant-associated infections after trauma
- Diagnosis: microbiology, histology, imaging
- Surgical and antimicrobial therapy
- Local antimicrobial therapy, drug delivery systems, bone cement, bone substitutes and bone grafts
- Early postoperative infections: When to revise? What to revise?
- Delayed postoperative infection: concept of septic delayed and
- Culture-negative infections: How to treat?
- Efficient and cost-effective prevention of infection
- Difficult surgical cases: multiple revisions, compromised soft tissues, insufficient bone stock, persistent infection
- Therapeutic options for difficult-to-treat and multi-drug resistant microorganisms
- Typical errors leading to treatment failure
- The importance of animal models to bridge the gap from in vitro to clinical studies
- Potential future solutions: implant coating, bone regeneration. bacteriophage therapy, hydrogels

Venue

Langenbeck-Virchow-Haus (Aesculap Akademie, 5th floor) Luisenstraße 58/59 10117 Berlin, Germany

Local Public Transport

Subway: U6 - "Oranienburger Tor"

U55 - "Hauptbahnhof"

Train: S1. S2. S25. S5. S7. S75 – "Friedrichstraße"

S5, S7, S75 - "Hauptbahnhof"

Tram: 12, M1, M5 – "Oranienburger Tor"

M5, M8, M10 - "Hauptbahnhof"
